

This is the life of Angela: Vieyra: Grimaldo.

Since I and my brother left us alone while my Mom worked and her husband stayed with us in you see that the Lord will work. It towards my mother my life has been miserable because I couldn't tner my mom with my. I did not know what is love from mother because she always worked and in his spare time dormia or spent it with her husband. I think that you mama no I wanted to my or my brother a kiss from MOM or a sweetheart or a hug from MOM. the Lord us bevantaba very early if not wanted not wet do not hit very ugly and my mom it allowed because the Lord said that was to educate us. You asked my mom that not mess because it was for our education. I was a girl with much sadness always cleaning the House. I didn't know what he was playing, I didn't have infancy when we lived with my grandparents, my mother's parents were happy, but when it had problems my grandparents with the Lord, we had to go with the husband of my mother's family. Did not want my brother or my. Us said her mom not their grandchildren and I were you saying my mom because us said Grandma that we were not grandchildren and my mom we said he did not know what said by his lady had diabetes disease. It was a very angry woman - not we wanted because we were not grandchildren. Not toward less we saw evil she just wanted grandchildren. It looks like the Lord. Both are equally bad such suit such splinter my supposed grandmother lived: next to us and my mom was going to work and Lady or a return gave us. Because of the Lord because the had relations with the sister of my mother. My aunt came out embarasada. My grandfather was my mom's home and we had to leave all my grandparents House. My mom embaraso her husband to the sister of my mother, my aunt we had to go from my grandparents Ranch because of the Lord. We went to Leon Guanajuato. Life was very sad for my brother and I because no us wanted grandmother because said that we were not their grandchildren. You may God forgive her for being so bad with us I already it forgive, thank God I could forgive.

I spend time and I grew up. Me converti in Miss. The Lord I saw as a woman and not as the daughter of my mother. Worked at night my mom. The Lord hope the time to abuse of my. Everything went in his favor because my MOM never take care of their children. It took us the Lord, her husband. Because I didn't have my mom? I love her very much even if it does not I I if. When I spend about abuse stand that my brother gave it has and the Lord wanted him locked in a boarding school that he didn't speak. I knew by my brother that the what miro me hiso the Lord told me already that the adult when that step were children the Lord we amenaso that was his word against some children, that we would not believe. My mom we amenaso that hablarnos is something that I could never tell you my mom charge a great remorse let alone with her after the Lord abuse of my. I could be without taking care of Lord fear all the time was cuidandome. I could not sleep for fear that abused of my because abuse of my many times. I lived happy and just didn't come to big to go. I thought when you have boyfriend if he asked me to go with, I'm going, because I don't want to follow in my house with fear.

The first boyfriend I have my anger and so the hise. I play a good man and had 4 very cute children. Everything was fine until I realized it had deceived saying that if he was a Virgin and

was not so. He will never forgive me. That was what ended our marriage. The husband of my mom ruined my life. To the owe my misfortune so far

I begin to be happy. Now I don't know about tristesas, so pure happiness. I hope to soon have my children with me. I was so soon will be my God also hope that soon come my mom and I can hug her very strong. Stranger to my brothers. The stranger much, love. I don't want to fall into drugs because it suffers a lot walking in the streets. There is no such family to be happy when you leave here I will deal with my children's do all you have to do to be with my children.
